Name: _____ Date: _____

MEASUREMENT AROUND THE HOUSE

We can measure things around the house.
We can use crayons or paper clips to see how long things are.

SKILL: Basic Measurement

ACTIVITY 1

Measure the objects using crayons.

Place crayons end to end beside each object.
Color a crayon for each one you use. Write how many crayons long.

1. **Pencil**   _____ crayons long
2. **Toothbrush**   _____ crayons long
3. **Spoon**   _____ crayons long
4. **TV Remote**   _____ crayons long

ACTIVITY 2

Compare the lengths.

Look at the two objects in each row. **Circle** the **longer** one. Color the **shorter** one.

1.  or 
2.  or 
3.  or 

ACTIVITY 3

Estimate the lengths.

Guess how many crayons long each object is. Write your best guess.

1.  About _____ crayons long
2.  About _____ crayons long

Remember: Measure carefully, compare, and estimate!
